DRI CORPORATION UPDATES SLATE OF FINANCIAL CONFERENCES AND MEETINGS

DALLAS, Sept. 27, 2007 – DRI Corporation (DRI) (NASDAQ: TBUS), a digital communications technology leader in the domestic and international surface transportation and transit security markets, announced today that it has updated the calendar of financial conferences and meetings in which management will participate in the coming weeks.

“Our products and services for the surface transportation, mobility and security markets make us a unique story on Wall Street, in our opinion. Our planned investor relations activities should help us share the Company’s message with groups of interested financial professionals from around the world,” David L. Turney, the Company’s Chairman, President and Chief Executive Officer, said.

Upcoming events include:

- **EQUITIES Magazine Transatlantic Conference, Oct. 1, 2007, London Stock Exchange, London** – This conference will be available via a delayed audio webcast on www.equitiesmagazine.com. Mr. Turney’s presentation is scheduled at 9:30 a.m. (GMT).
- **Wall Street Reporter 13th Small-Cap Discovery Conference, Oct. 24, 2007, New York** – This conference will be available via audio webcast at www.vcall.com and www.wallstreetreporter.com. For more information, visit www.wallstreetreporter.com.
- **Meetings with Institutional Investors, Oct. 25, 2007, San Francisco**

The Company previously announced its plans to participate in the Arch Investment Conference, Oct. 25, 2007, in San Francisco. Unfortunately, following an earlier re-scheduling, the event organizers have now cancelled that conference.

ABOUT THE COMPANY

DRI is a digital communications technology leader in the domestic and international public transportation and transit security markets. Our products include: TwinVision® and Mobitec® electronic destination sign systems, Talking Bus® voice announcement systems, Digital Recorders® Internet-based passenger information and automatic vehicle location/monitoring systems, and VacTell™ video actionable intelligence systems. Our products help increase the mobility, flow, safety, and security of people who rely upon transportation infrastructure around the globe. Using proprietary hardware and software applications, our products provide easy-to-understand, real-time information that assists users and operators of transit bus and rail vehicles in locating, identifying, boarding, tracking, scheduling, and managing those vehicles. Our products also aid transit vehicle operators in their quest to increase ridership and reduce fuel consumption, as well as to identify and mitigate security risks on transit vehicles. Positioned not only to serve and address mobility, energy conservation, and environmental concerns, our products also serve the growing U.S. Homeland Security market.
