DRI CORPORATION ANNOUNCES PARTICIPATION IN INTERNATIONAL TRANSIT INDUSTRY CONFERENCE

DALLAS, Oct. 12, 2007 – DRI Corporation (DRI) (NASDAQ: TBUS), a digital communications technology leader in the domestic and international surface transportation and transit security markets, announced today that its Mobitec AB subsidiary in Sweden will be participating as an exhibitor at Busworld Europe Kortrijk, Oct. 19-24, 2007, in Kortrijk Xpo, Belgium.

“Busworld Europe Kortrijk is the biggest and oldest specialized exhibition for the coach and bus sector in the world. During the 18th edition of this biennial exhibition, the event will attract coach and bus builders, accessory manufacturers, public transportation officials and suppliers, and tourism officials from around the globe. Mobitec’s sales and marketing representatives will be meeting with many customers and prospective customers throughout the six-day conference at exhibit booth number Rambla 2-7 to discuss Mobitec® products and services,” David L. Turney, the Company’s Chairman, President and Chief Executive Officer, said.

ABOUT THE COMPANY

DRI is a digital communications technology leader in the domestic and international public transportation and transit security markets. Our products include: TwinVision® and Mobitec® electronic destination sign systems, Talking Bus® voice announcement systems, Digital Recorders® Internet-based passenger information and automatic vehicle location/monitoring systems, and VacTell™ video actionable intelligence systems. Our products help increase the mobility, flow, safety, and security of people who rely upon transportation infrastructure around the globe. Using proprietary hardware and software applications, our products provide easy-to-understand, real-time information that assists users and operators of transit bus and rail vehicles in locating, identifying, boarding, tracking, scheduling, and managing those vehicles. Our products also aid transit vehicle operators in their quest to increase ridership and reduce fuel consumption, as well as to identify and mitigate security risks on transit vehicles. Positioned not only to serve and address mobility, energy conservation, and environmental concerns, our products also serve the growing U.S. Homeland Security market.
